MOOC participation

From 2018 to 2023, I have been co-leading the editorial committee on the MOOC (Massive Online Open Courses) deployment strategy within the Institut Mines-Télécom. Today, the IMT's collection includes 40 MOOCs and the IMT is currently working on the production or design of about twenty new MOOCs, including three new certification courses.

In addition, I participated in 2020 in the new version of the MOOC *Ose les métiers de l'industrie du futur*, a discovery path on Industry 4.0.
